Foundations of C Programming
- Course Introduction

Teachers

Section	Instructor	TA
1001	Dr. Judy FENG (xinfeng@bnbu.edu.cn, T3-502-R22)	Ms. Lily LIN (chengyanlin@bnbu.edu.cn, T3-602-R25-H7) Ms. GAO Jingyun w630201703@mail.bnbu.edu.cn
1002	Dr. Gigi JI (chunyanji@bnbu.edu.cn, T6-403-R4)	Ms. Yitong LIU(yitongliu@bnbu.edu.cn, T3-602-R25-H11) Mr. ZHANG Yindong (u430201702@mail.bnbu.edu.cn)
1003	Dr. Gigi JI (chunyanji@bnbu.edu.cn, T6-403-R4)	Ms. Yitong LIU(yitongliu@bnbu.edu.cn, T3-602-H11)
1004 (FE)	Dr. Judy FENG (xinfeng@bnbu.edu.cn, T3-502-R22)	Ms. Nina MA(yingranma@bnbu.edu.cn, T3-602-R25) Mr. LI Xiang(w630005040@mail.bnbu.edu.cn)
1005	Dr. Donald CHEN (donglongchen@bnbu.edu.cn, T3-401-R4)	Mr. Sinian Luo(sinianluo@bnbu.edu.cn, T6-302-H6) Mr. Yingchao Cui(yingchaocui@bnbu.edu.cn, T6-403-H4)
1006	Prof. Zhe XUANYUAN (zhexuanyuan@bnbu.edu.cn, T3-602-R5)	Mr. Sinian Luo(sinianluo@bnbu.edu.cn, T6-302-H6) Mr. Lei Hou(leihou@bnbu.edu.cn, T6-403-H7)

Course Convener: Judy FENG
TA header: Lily LIN

WeCom Groups

Each section will create a WeCom group.

- Pay attention to the notices in both school email box and WeCom group.
- Do not send an email to teachers through iSpace message. Please send an email using our school email box.
- Ask questions in the WeCom group.

Lectures + Labs + Tutorials

- Each week, we have
  - 2 lecture hours,
  - one lab hour, and
  - one tutorial hour (cab be used as lab hour too).
- Your attendance to lectures and labs is compulsory.
- There might be 2-3 extra tutorials by TA volunteers in this semester.
  - Not compulsory.
  - In Chinese (Students who do not speak Chinese can contact TA for help).

Reference Books

- Refer to references in the course syllabus.
- E-books in pdf format can be found in the Internet for references only.
- Not all the chapters in E-books are covered.
- It is strongly encouraged to learn C from the Internet resources
  - For examples, http://c.biancheng.net/c/ (中文) and https://www.tutorialspoint.com/cprogramming/index.htm (English).

iSpace

- Website: ispace.bnbu.edu.cn
- iSpace is a course management system used in BNBU, where you can find
  - Student handbook and guidelines
  - course lecture slides
  - lab questions and assignments
  - grades for lab and assignment work and quizzes
  - rubrics and syllabus
  - important notices
- How is your submitted work evaluated
  - Refer to CRA rubrics in iSpace.

Course Evaluation

- Continuous assessment: 60%
  - Assignments: 10%
  - Labs: 20%
  - In-class exercises (little quizzes + mid-term exercise): 20%
  - Group projects: 10%
- Final examination: 40%
  - Final examination receives a special concern.
    - If you get a high score from the continuous assessments but a low score in the final exam, you might **fail** this course, even though your total score is not low.

Course Evaluation

- Mid-term and final exams are paper exercises.
- In assignments and labs, not all the exercises will be graded, but all submitted exercises will be counted.
  - Which exercises will be graded are unknown to students.
- After each lecture, there is a little quiz (10 minutes, MCQ, open book). Students can have two attempts for each quiz.
  - If you give some wrong answers in the first attempt
    - ✓ you can review the slides, and then
    - ✓ try the quiz again before the deadline.
  - The higher score will be recorded.
- Final grades are given respectively in different groups: CDS year one students group， FE group, and MATH+N group.

How to Fail Quickly

DISHonesty = FAIL

- Time
- Money

- Plagiarism in assignments and labs
- Cheating in quizzes and exams

Academic Integrity

Picture reference:
https://pennstatelearning.psu.edu/istudy_tutorials/academicintegrity/academicintegrity3.html

Academic Integrity

- What is considered plagiarism in an assignment or a lab exercise?
  - Any program which does not start from 1) an empty program, and 2) a program from the lecture notes or lab requirements.
- If student *A* refers to student *B's* work, BOTH *A* and *B* are given 0, no matter whether *B* knows or not.
  - It is a student's responsibility to prevent his work from being copied.
- Refer to the Appendices part at the end of this ppt for more details.

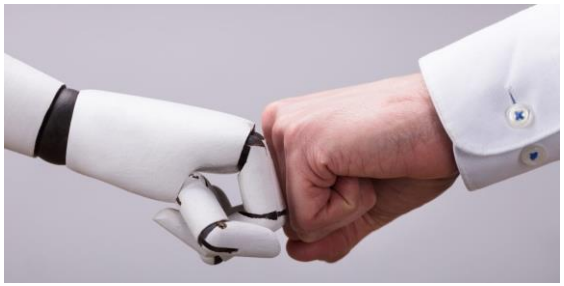

Use AI (Artificial Intelligence) for Homework?

- Ask yourself another question:
  - Can AI do the exams for me?
- If you let AI do the homework for you today,
  - you will be replaced by AI tomorrow.

AI can be an Assistant of I.

AI is not Another I.

Don't let Artificial I replace I.

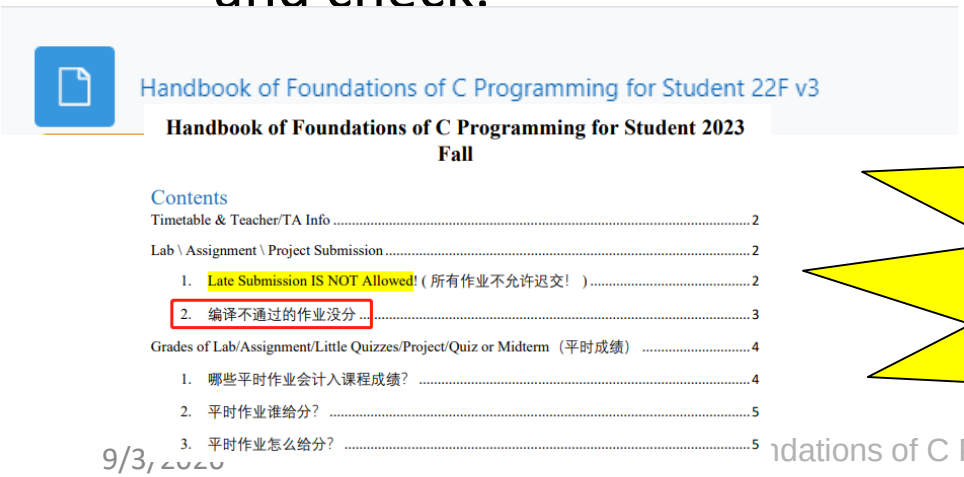

Refer to Appendices at the end of this ppt about the principles for the use of generative AI Tools.

Make-up Exams

- There will be no makeup exams or quizzes without a documented legitimate reason that is out of your control.
- A heavy workload or social conflict is NEVER an acceptable excuse.

About Submission and Grade

- No lab or assignment exercises are accepted after deadline.
  - Do not wait until last half an hour before a deadline to submit your work, the Internet might happen to crash at that moment.
- No excuse is accepted for a wrong submission
  - Be careful on the submission requirements from teachers
  - Double check the submission by downloading the submission and check.

Handbook of Foundations of C Programming for Student 22F v3

Handbook of Foundations of C Programming for Student 2023 Fall

Contents

Timetable & Teacher/TA Info 2
Lab \ Assignment \ Project Submission 2
1. Late Submission IS NOT Allowed! (所有作业不允许迟交！) 2
2. 编译不通过的作业没分 3
Grades of Lab/Assignment/Little Quizzes/Project/Quiz or Midterm（平时成绩） 4
1. 哪些平时作业会计入课程成绩? 4
2. 平时作业谁给分? 5
3. 平时作业怎么给分? 5

Important:
Read handbook in iSpace to learn more.

Course Policies

- Do NOT use Mobile Phone in the lecture time.
- Use computers or Laptops only when the teacher asks you to do.

Course Policies

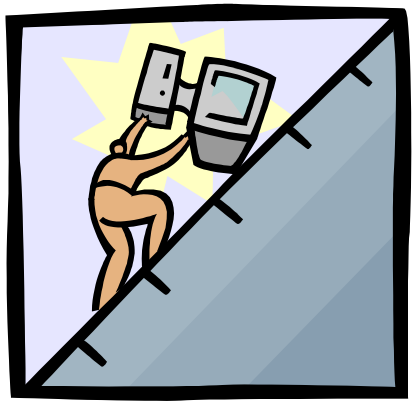

- Come to class **on time**
- Enter classroom quietly if you are late
- Do **NOT** speak to each other during lectures
- Raise your hand for questions
- It is your responsibility to get the course notes, handouts, and laboratory assignments from iSpace
- Students with excessive unexcused absences may be **excluded** from final examination

Study Tips

- Attend the lectures & labs & Tutorials
- Keep an eye on iSpace about notice, solutions etc.
- Practise the examples in the lecture notes
- Make use of the Internet resources to find the solutions
- Spend at least two out-of-class hours for each lecture hour
- Complete the labs and assignments independently
- Write programs as many as possible! Learn in practices.

No Pain, No Gain!

How to Learn A Programming Language: Practice and Practice and Practice

Push. Push.. Push...

a) Copying another person's actual words without the use of quotation marks and footnotes in written assignments;

b) Submitting another's work for assessment as one's own;

Violation of the Examination Regulations

a) Having unauthorized articles/items (e.g., mobile phone, smart watch, calculator, etc) on the examination desk, in the pockets or on your body;

b) Continuing to write after the end of an examination/test/quiz;

c) Disobeying instructions of an invigilator;

d) Removing articles/items (e.g., question papers) other than personal belongings from the venue of examination/test/quiz;

e) Leaving the venue of examination/test/quiz without permission.

Exam regulations violation

Cheating

a) Using notes (e.g., paper notes, notes written on body, etc.) during a closed book examination/test/quiz;

b) Unauthorized use of articles/items (e.g., mobile phone, smart watch, calculator, etc.) during an examination/test/quiz;

c) Organizing or conducting group cheating via WeChat, QQ, Email or other social media;

d) Exchanging question papers, answer books, MC answer sheets or other exam documents during an examination/test/quiz;

e) Copying from other student(s) during an examination/test/quiz or allowing another to copy your work;

f) Impersonating another student at a test or an examination or allowing oneself to be impersonated;

Penalty

If YOU	LEVEL/ FREQUENCY	PENALTY
Plagiarism	n/a	F grade for the course.
Violation of the examination regulations	Level 1	Down one sub-grade for the course.
	Level 2	Down one full grade for the course.
Cheating	1st Time	① F grade for the course; and ② Written warning (书面警告->档案).
	2nd Time	① F grade for the course; and ② One demerit (记过->档案).
	3rd Time	① F grade for the course; and ② Two demerits; and/or ③ Dismissal (开除) from the University.

Principles for the Use of Generative AI Tools

① AI-Empowering: to embrace generative AI and empower students and instructors to realize the potential of generative AI tools as part of the University's knowledge creation and teaching and learning ecosystem;

② AI-Critical: to encourage healthy, informed skepticism of generative AI and develop students' and instructors' critical thinking and awareness of the strengths, drawbacks and limitations of generative AI tools;

Principles for the Use of Generative AI Tools

③ AI-Ethical: to maintain academic integrity, transparency, and the ethical use of generative AI tools;

④ Build and Sustain Human Uniqueness: to recognize the importance of students and instructors as unique individuals with lived experiences, knowledge, skills and attributes. Provide space and time for individuals to understand and develop themselves as unique individuals within the College teaching and learning ecosystem.
